

Author Expects Big Production At Yellowknife

Continued from Page One

Was waving it around. There was not nearly enough copies. I was fortunate to borrow one from the hotel manager, just to look over. There was great interest displayed by everyone in the gold mining camp," Mr. Carroll said.

Mr. Carroll arrived by Canadian Pacific Airlines early Thursday evening and left in the morning by TCA for Toronto.

The writer spent some time in the bush around Yellowknife, including Inlet Lake, where a great amount of prospecting and diamond drilling is now in progress. He talked with geologists and mining engineers connected with several large companies.

The important thing for Canadians and Americans to remember about Yellowknife is to put their money into the ground, into developing some of the many, almost unexplored properties that are there. If this is done in certain ways, it will be paid long dividends. They should take a long view, I think.

Mr. Carroll said he wished to make it clear that his own personal opinion, gained from his own new himself and through talks with many persons. Accurate figures on anything as vast as this cannot be obtained at the present stage of development, he said.

INFORMATION NEEDED
"The American financial world needs accurate information on Yellowknife and the mineral picture in Northwest Canada. There's plenty of money—millions—waiting to be invested—once the financiers are convinced of the true possibilities," Mr. Carroll said.

The Yellowknife area presents many problems but Mr. Carroll feels they would be solved. Trans-

portion must be improved for one thing.

"Despite the wartime restrictions mining may have done a great job of exploration but only a start has been made as yet."

Now if provided with good transportation, materials and manpower the field can be made into one of the wealthiest in history.

Mr. Carroll just completed work on a book for Time Inc. publisher of Time Life and Fortune, entitled "History in the Making." The book is a history of the war up until D-Day. He was 15 months preparing and editing the anthology that contains about 220,000 words.

He will soon start work on another book, "A History of the Canadian Bomber."

Canadian Troops May Leave Berlin Middle Next Week
By WILLIAM BOSS

BERLIN, July 26.—(CP)—Canadian composite Brigade Battalion will leave for Western Holland July 26. It was believed last night, although actual orders for departure of the force, which marched into the capital July 4 with the British 2nd Armored Division, have not yet been received.

It was thought arrangements were completed for the Durham Light Infantry, a British formation, to take over from the Canadians.

Because Berlin is the heart of the Russian occupation zone, the Canadians must get out clearances for their convoys from the Russians for the trip as far as Magdeburg, in addition to normal clearances through the British zone.

Twelve Are Killed In Australia Crash
SYDNEY, Australia, July 26.—(CP)—Twelve persons aboard a BAP Liberator heavy bomber were killed today when the plane crashed in Easter week after taking off from Woomera, 500 miles from the British base at Port Lincoln.

Counsel Claims Joffile Charge Has "Vanished"

Continued from Page One

ter was an "imaginative, hostile, expensive individual—a romantic."

The statement of Rowe's clarification that all contents of the former anti-sabotage office near Queen's Park had been "cleared out" on June 30, 1943, had broken down under cross-examination.

There was a vital point in the charges, and "that Mr. Joffile, in violation of the law, had been charged with the legal talents he has displayed before this commission, his house of cards would have collapsed, his main charge would have disappeared as I suggest it did disappear the moment Rowe's cross-examination finished."

EXCEPTION TAKEN
Mr. Magne took exception to Mr. Joffile's application of the word "charge" to the provincial police.

"That word, signifying 'murder and bloody outrage,' was an insult to every man in the province who had an enviable record for law enforcement."

Mr. Magne took exception to Mr. Joffile's application of the word "charge" to the provincial police. "That word, signifying 'murder and bloody outrage,' was an insult to every man in the province who had an enviable record for law enforcement."

He asked the royal commissioner, Mr. Justice A. M. LeBel to "judge" the lack of political belief of those who would use such a term.

Mr. Magne said complaints had been received from various members of the Ontario police force that children were reported to have followed the "Reds" through the streets, crying after them "gestapo."

Mr. Magne said he had received a letter from a woman who described the Ontario Provincial Police as "a bunch of scoundrels."

RESULTS ARGUMENT
Mr. Magne resumed his arguments.

He was not within the scope of the commission to decide "what is or was not a proper method of investigation." Evidence was heard during the inquiry about the "Reds" and the "Black Book."

Mr. Magne said he had received a letter from a woman who described the Ontario Provincial Police as "a bunch of scoundrels."

FUNNY BUSINESS—"I hope you don't mind—I wear my shirt like this back home in hot weather!"

Dempster had assisted Sanderson in the preparation of political advertisements.

Mr. Walker said there was only the testimony of Constable John A. Rowe, Mr. Joffile's chief witness, in showing that Sanderson had been granted access to the "special branch" files. Rowe he said, was "one of the most discredited witnesses I ever heard of."

There were plenty of sources for Sanderson's political material, Mr. Walker said, "and it would appear that one of the least fruitful was Osborne-Dempster."

Sanderson's motive in employing Osborne-Dempster since last August could not have been to gain political information, Mr. Walker argued, because Sanderson had not published any political advertisements since that time.

A letter allegedly written by Premier Drew in Sanderson, concealing the fact that Sanderson was against the letter by CCF election agent, was produced during the inquiry about the "Reds" and the "Black Book."

Mr. Walker also charged that Mr. Joffile and his counsel, Mr. Brown, had used the witness box in the inquiry as a "whipping post" for those who had expressed opposition to the CCF.

Say Franco Plans To Proclaim King
By FRANK BREESE

Excluded to the Montreal Bulletin LONDON, July 26.—(BUP)—Generalissimo Francisco Franco is preparing to proclaim a monarchist prince as king of Spain in an effort to secure his own authority as chief of state for at least another ten years, informed diplomatic quarters.

An informant said he understood Franco had chosen Prince Alfonso Jaime, duke of Segovia, as the monarchist prince.

The young prince would not be eligible to take over the duties of the crown until he reached his majority, the informant pointed out, and a regency board by Franco would be formed to administer state affairs until Alfonso became of age.

Francisco's reputed decision to bestow the Spanish crown on Prince Alfonso was said to have followed a rebuff Franco received from Don Juan, the heir apparent.

Jail Officials Are Suspended Following Break
KITCHENER, Ont., July 26.—(CP)—Two Waterloo county jail officials, Governor E. G. Langridge and night guard William Chivers, were suspended following a prison break yesterday.

The purpose of the break was to make plans for the restoration of the monarchy with Alfonso Jaime on the throne.

The young prince would not be eligible to take over the duties of the crown until he reached his majority, the informant pointed out, and a regency board by Franco would be formed to administer state affairs until Alfonso became of age.

Francisco's reputed decision to bestow the Spanish crown on Prince Alfonso was said to have followed a rebuff Franco received from Don Juan, the heir apparent.

Mountain Talks With U.S. General
MANILA, July 26.—(Delated)—(AP)—Admiral Mounbatten, Allied Southeast Asia commander, and his staff returned to India by air today Sunday after a three-day conference with Gen. MacArthur which was officially announced as intended to arrange co-ordination between the two respective commands.

Lord Mountbatten, who had been in Manila several hours after Gen. MacArthur's arrival, said he had discussed the situation with the general.

Mr. Blackwell had returned to the reports as a "lot of rot," Mr. Cohen continued. "We know the charges would accrue to the Drew government if that rot was not cleared out."

The reports were made by Osborne-Dempster because he was known to the police authorities of the administration, Mr. Cohen continued. Beginning in November, 1942, the general branch chief had been filing an "entirely different type of reports on which carried out the 'red smear' technique."

This technique was common to the political lines followed by Premier Drew, Gladstone Murray, former policy counsel, and M. A. Sanderson, Toronto magistrate.

Mr. Cohen said he had indicated that no more be brought to him after June, 1943.

When he testified before the inquiry, Mr. Blackwell told of receiving reports signed DORR (Dempster Osborne Rowe) and "Reds" and "Black Book" in the name of those related to the CCF. He had not known these reports were the work of a provincial police member, the attorney-general said.

Gigantic Fires Blaze in Japan After B-29 Raid

Continued from Page One

battlewagons, carriers, cruisers and supporting warships were still unscathed, except for the damage after thrusting into the mouth of the bay, where the B-29s were firing in an effort to lure the battered Imperial Fleet into battle.

Fleet Admiral Yamamoto, Nimitz gave no additional details on the bombardment of Nagasaki, westernmost of the four islands, or the preliminary air strike on the wakaoku naval base Wednesday.

That indicated Halsey had imposed radical alliance on his armada, possibly covering a new blow at the enemy coast.

BIGGEST AIR ATTACK
Following the B-29 attack more than 600 Mitsubishi Superfortresses, the biggest B-29 fleet ever sent, scored a 20-mile raid on the city of Hiroshima.

The B-29s were fired across the mouth of the bay, where the B-29s were firing in an effort to lure the battered Imperial Fleet into battle.

Thundering into the attack around midnight, the raiders poured in six consecutive days of hell-bombing fire on the city of Hiroshima, the biggest B-29 fleet ever sent, scored a 20-mile raid on the city of Hiroshima.

Two Superfortresses, less than one-half of one per cent of the striking force, were lost in the attack. One was shot down in flames and the other was abandoned after, with five of its crew members rescued by Halsey's raiders.

Bomber pilots returning from the attack were greeted by anti-aircraft fire in the city of Hiroshima, the biggest B-29 fleet ever sent, scored a 20-mile raid on the city of Hiroshima.

At Fukui, the raiders apparently achieved complete surprise. The city of Hiroshima was burning brightly when the first bombs began falling. When they finally reached the city, the incendiary bombs set off a firestorm that burned for 100 miles and more.

10TH IGH TARGETED
The 10th Japanese air corps, made up of the Superfortresses in the B-29 fleet, was the main target of the attack.

Duke of Windsor Going to Britain

Continued from Page One

WASHINGTON, July 26.—(AP)—The Duke of Windsor said yesterday he expects to confer next month in Britain with the King, and he said he would accept the appointment as an unofficial member of the royal household.

The Duke shook his head when reporters asked whether such an appointment was likely, although he added that he would accept the post if it were offered to him.

"I don't think it's very probable," he said. "That rumor wasn't official, you know."

The Duke said he was "out of a job" since resigning as governor of the Bahamas. He said the Duchess would accompany him to England, where he would see the King and the Prime Minister, and then they would go to France to look after some of his property there.

He said he had plans neither for a future home, nor occupation.

Argentine Frees Govt. Prisoners
BUENOS AIRES, July 26.—(AP)—Argentine federal police announced that the Ernesto Galtieri, leader, author and accomplice, was included among 48 political prisoners freed yesterday. Galtieri was arrested last Jan. 1.

Spanish Cabinet Shakeup Nearing
By RALPH FORTE

Exclusive to The Edmonton Bulletin MADRID, July 26.—(BUP)—A sweeping reorganization of the Spanish government was imminent today in an apparent move by Gen. Francisco Franco to break the Falange and smooth Spain's way back into the good graces of the United Nations.

Authoritative sources said Franco might announce the shake-up today, and that it definitely would be made public within the next three or four days.

Chief victim of the cleanout was expected to be Jose Luis Arce, minister of without portfolio and secretary-general of the Falange party, whose two posts were slated to be eliminated completely.

One possible aspect of the reorganization was the scheduled removal of Jose Llerenas as foreign minister. Llerenas was named to the post last August and under his guidance Spain severed relations with Japan, embarked on a general policy of rapprochement with the Allies, and more importantly, began cutting down the power of the Falange.

Well-known quarters believed he was being sacrificed to counterbalance the removal of Arce, his main opponent in the Falange.

Protest Sentences Of Halifax Rioters
VICTORIA, July 26.—(CP)—Letters of protest against the long prison terms given sailors in connection with the riot at the V.E. Day will be forwarded by the Victoria and District Trades and Labor Council to Prime Minister Mackenzie King and Justice Minister St. Laurent. It was decided at a meeting of the council Wednesday night.

PUSH CARMICHAEL INDUSTRY
COLONBO, Ceylon.—(CP)—The establishment of an export trade in kashmir, or pure-white China clay, is recommended for the post-war development of the mineral resources of Ceylon. In its chemical composition, texture, color and plasticity, the refined China clay of Ceylon is said to be equal to the best English clays.

Purpose of Hitler Bomb Plot Was to Preserve German Staff

By GEORGE TUCKER
FRANKFURT, GERMANY, July 20.—(AP)—Officers of the United States forces in intelligence division in the European theatre are convinced that one primary purpose of the July 20, 1944, bomb attempt on Adolf Hitler's life was to end the war in such a way as to leave the German general staff intact.

In their judgment the plotters, who made their bid for power just a year ago today, hoped after removing the Fuehrer to negotiate peace with the Allies that would perpetuate the general staff, at least leave it to prepare for the war.

Officers who have examined hundreds of official interrogation reports have listed reasons for the plot. Details of one of the significant plots at Hitler's headquarters, which were the execution of Wehrmacht officers, altered the army's entire command and accelerated the end of the Reich toward its final defeat.

EXCLUSIVE RENDEZVOUS

The exclusive Union club in Berlin became a rendezvous, and there conspirators met frequently to plan and draw up lists of Nazis and SS officers earmarked for death.

In Paris, Berlin and elsewhere key Wehrmacht commanders were being made to make wholehearted avowal of SS actions even in the signal of Hitler's death was fled.

"It was a perfect plan, seemingly foolproof," said Hitler, Ernst Hitler of Austria, N.Y. "It failed because of three vital little things that could not be foreseen."

On the morning of July 20, Hitler moved on schedule to his headquarters at Rastenburg, East Prussia.

After the usual pleasantries he and his staff entered buildings and headed for the war room where routine briefing on the military situation was to be held. But at the last moment, for some unexplained reason, the regular briefing room was abandoned for a larger one upstairs. This was the first definite break against the plotters.

OFFICERS COME IN

A few minutes later Col. Von Stauffenberg of the general staff came in. He carried a briefcase in his briefcase. The fact that he was permitted to approach Hitler with briefcase in hand distinguished him from the others.

FLASHED "DEATH" NEWS
The conspirators, believing they had won, quickly flashed word to the press that Hitler was dead.

In Paris, Gen. Stauffenberg struck swiftly, killing the entire SS command and making wholesale arrests of Wehrmacht officers of whose sympathies he was sure.

Von Stauffenberg flew to Berlin. He went directly to his office, summoned his secretary and was citing a new list of Nazi officers. The list was being planned on the spot. He was planning to send it to the army at the same time two tank divisions. The Germans attacked in six tank divisions.

However, as a result of a series of delays during the night, the first mechanized division was still in the process of formation and the British division sent on its first division.

It is true that I met with some resistance from a number of officers still imbued with the theories of Marshal Petain. They wanted to develop, above all, limitations of independent tanks. I passed over their opposition but they tried to turn public opinion in their favor. And that is what caused the misconception in the press.

Tiny tots lost
There was the usual number of tiny tots, begotten from streaked with tears, who became separated from their guardians and who were later reported as being "in the air" or their "mamma" but by the time the evening was over the number of frantic searches for "happy meetings" came out even more than the number of "tiny tots" lost.

Top Army Officers
Will Return Home
With Gen. Crerar
OTTAWA, July 20.—(CP)—Four senior officers of the Canadian Army headquarters will accompany Gen. Crerar, 1st Canadian Army commander, when he sails for Canada July 21, defense headquarters announced last night.

The officers are: Chief of Staff, Gen. G. C. McLean, chief of staff; Brig. G. C. McLean, chief of staff; Brig. G. C. McLean, chief of staff; Brig. G. C. McLean, chief of staff.

AT BERLIN VICTORY GATE—Through Berlin's famed Brandenburg Gate, traditional scenes of German victory marches, go an American jeep with advance elements of the U.S. force helping occupy the city. Russian M.P. directs traffic.

him as an officer with wide privileges.
Von Stauffenberg casually placed his briefcase on the floor next to the desk, spoke a few words to the aide and then he walked out the door to have a closer look at the maps. This move, quite by chance, placed a massive oak desk between Hitler and Von Stauffenberg's briefcase.

As Hitler stood gazing at the map a terrific explosion blasted through the room, killing six officers and maiming the others. Hitler himself was thrown against the wall and partially stunned, but not seriously injured.

Minister Becomes Pullman Attendant

KANIGORS, B.C. July 20.—(CP)—The Canadian Minister of Transport, Mr. James H. Macpherson, 36-year-old minister and graduate of Toronto Bible college, has been working for more than a year as a railway porter for the Canadian Pacific Railway.

When war broke out Mr. Macpherson, who had previously worked for five years in churches throughout New Brunswick, Nova Scotia, Ontario and Quebec, tried to join the RCMP as a padre. However he failed to get his appointment and so enlisted in the Merchant Navy. He saw considerable service in the Navy before a shore accident laid him up.

"I figured I'd like to carry on with the Navy," he said. "I took a job as sleeping-car attendant," he said. "For the last few months he has been serving on trains engaged in military work."

Mr. Macpherson said he has already collected several interesting anecdotes in connection with his work as a Pullman attendant. He is now making studies which will be available to the Merchant Navy. He is now making studies which will be available to the Merchant Navy.

production of special dispatches are reserved.

Supervised Playgrounds

Between September 3 and 8 Edmonton will have its official Recreation Week, during which an attempt will be made to stimulate public interest in the recreational needs of the city.

These recreational requirements are so urgent and so vital that no one need wait until September 3 to give the matter serious consideration. Particularly in the matter of recreation for children is the need so pressing that any delay is both dangerous and almost criminal.

Edmonton possesses, at the present, only three supervised playgrounds. These, established by the Gyro Club are at 109 street and Whyte street, and at 109 street and 114 street and 103 avenue.

For a city of Edmonton's area and Edmonton's child population this is not only inadequate but almost criminal.

For the character of the child is determined by the nature of his play as much as by his home life. If the child is to be a healthy, well-adjusted citizen, the natural tendency of the child has to find outlets in mischievous and destructive practices, habits which are formed that will handicap his whole life.

If, on the other hand, his habits of play are directed into orderly and cooperative channels, these habits will be formed which will persist in everything he does.

The town planning commission of Edmonton has set out a plan for supervised playgrounds in various sections of the community.

In the interests of juvenile health and juvenile wholesome, at least 20 of these sites should be developed within the next year as part of Edmonton's reconstruction program.

This will cost money, of course. But it is money that could be spent in other ways. Even at that, these projects are not expensive. Toronto established her entire playground system on an extra one mill levy.

Moreover, the Bulletin has pointed out before, the supervisors need not be high-trained athletes and sportsmen. Any healthy young person of good sense and a way with children can fill the bill quite well.

If Edmonton people want the best for their children, if they want to avoid the problems of juvenile delinquency and street playing, accidents, and other evils of bad habits, they will be prepared to pay a price for supervised playgrounds as the best agency for eliminating these hazards.

Safety First

Edmonton's chief constable has warned the public to exercise care in property locking their motor cars when they attend the exhibition if they wish to avoid car theft and petty pilferage.

This is a warning that could be extended to apply to houses as well as cars and for all time as well as during exhibition week.

One of the great contributory factors in theft of any kind is the carelessness of the public. It is a sad fact that the more homes and the entrances to their places of business are burglarized, the more the police have to devote a great deal of time on checking on the security of business premises every night.

No police force can function efficiently without the full co-operation of the public. And open doors, whether of cars or homes or stores or offices, are simply invitations to thieves.

It should be safety first with every proprietor.

A King Must Be Kingly

Leopold, King of the Belgians, has been exiled by his parliament. The monarch who has flatly refused to abdicate will not be able to regain his throne nor enter Belgium without the permission of both parliamentary chambers.

It is both impossible and unjust to judge Leopold either on his surrender to the German armies or on his present attitude with regard to abdication. Evidence is so confusing and even so inconclusive that for anyone at this distance to draw a verdict on his worthiness or unworthiness would be arbitrary.

It is impossible to judge, for instance, what pressure was brought to bear on Leopold before his surrender of the Belgian crown in 1940. It is impossible to know what circumstances have governed his life since then. There is absolutely no evidence that his behavior in either case was other than that of a man who was not a king.

The chances are that the average man would have done as he did.

But a king is expected to be more than manly. He is expected to be more than average. He is expected to be kingly.

That is why surrender of the Belgian crown so profoundly shocked the world—not because it was the natural thing to do but because it was not a royal thing to do. Leopold's behavior, while explainable and perhaps excusable, fell short of the heroic behavior of the monarchs of Holland and Norway and Denmark.

It is true that the Belgians, with Leopold now, for the Belgian people are among the most valiant people of Europe. They have a high standard of buoy-

and fortitude. And they, like all other folk living under a monarchy, demand only one thing of their king: that he be kingly.

National Responsibility

The city of New Westminster has established a fund by public subscription which has been used to buy annuities for the two V.C. winners, Private Ernest Smith and Major Jack Mahoney, who are natives of that community. This fund will bring each of these men \$100 a month for life, or until they die in the U.S.A.

New Westminster is to be congratulated upon its enterprise and gratitude. But the magnificent action of its citizens in this case is a fine example of the spirit which the Edmonton Bulletin urges upon the federal government some weeks ago—the payment of a \$2000 annuity to every V.C. holder in the country.

The action of New Westminster people shows what public sentiment is in this matter, not only in New Westminster, but all across the country.

But the responsibility is not a community responsibility. It is a national responsibility which should be borne by every Canadian citizen.

These V.C. winners did not serve their own communities. They served Canada. Canada should give every one of them a life-long guarantee against privation or financial distress.

Who Pays?

The national debt of France has been quadrupled since the war began. Approximately \$3 billion dollars when the war started, it is now \$33 billions. France was in the war less than a year, from September 1939 to June 1940. It is a liberal estimate that the cost of the war to France was \$20 billion dollars. The remaining 20 billions of debt were piled on the French people by the government of the Third Republic. Laval subjugated during the occupation years.

Those who have been asking how Germany has managed to finance its war effort can find the answer in these figures. The financing was not done by any new-fangled financial system, but by any old-fashioned method of taxation.

France had to "support" the army of occupation on a scale the army never cost. In addition, its credit was converted into cash and cash was turned off to Germany along with all the other loot, negotiable and useable, that the exploitation experts could lay hands on. With variations, the same process of wealth-extraction was applied from Norway to Greece. The subject states were made to bear the heavy share of Germany's war.

It is to the point to ask: how much of the debt load thus imposed upon the taxpayers of France and other countries is being paid by the German government? That is one item in the account not to be overlooked when settlement day arrives.

Looking Backward

From the Bulletin Files

1955: 50 Years Ago

J. Lindeau returned Monday from Beaver Lake, where he has been on a cattle buying trip. He has purchased over 200 head of cattle and will be taken to Calgary by trail. This will be a great relief to the cattle market here, which has been stricken by the drought. The reason for the drought is that the great buyers were not in demand here by the great buyers, not because we had no many cattle, but because we had no many buyers to make it worth while for these buyers to come after them and pick them up.

A number of the members of the cabinet declare publicly that they will resign from office, and then they will be asked to resign. The reason for this is that they have been promised in their action that they will be asked to resign. The reason for this is that they have been promised in their action that they will be asked to resign.

Unconditional Surrender

By DOROTHY THOMPSON

Senator Wallace H. White, Jr., of Maine, and others who have had the courage to demand a definition of "unconditional surrender" as it applies to Japan, will, I think, decide the issue. Certainly the President's V-E day statement that "unconditional surrender does not mean the extermination of the Japanese people or enslavement of the Japanese people" is a good definition.

But the word "unconditional" has also lost its meaning, since it is possible to surrender unconditionally in a way which leaves in no personal or political freedom.

Unconditional industries can be so strangled that it is impossible to produce peace-time commodities. The word "unconditional" has also lost its meaning, since it is possible to surrender unconditionally in a way which leaves in no personal or political freedom.

Unconditional industries can be so strangled that it is impossible to produce peace-time commodities. The word "unconditional" has also lost its meaning, since it is possible to surrender unconditionally in a way which leaves in no personal or political freedom.

The Bulletin's SPORT CHAMPION by Hal Dean

FOR "an unsatisfactory ride" on Anna-A-Vish in the fourth race on Wednesday, July 18, Jockey G. Gonzalez has been suspended and his case has been referred to the Prairie Thoroughbred Breeders and Racing Association for further action.

It is reported that Joe Randall, former Edmonton junior hockey player who eventually became a member of the Montreal Canadiens, has just received his discharge from the Canadian army and expects to line up with the Canadiens next season. Joe was with Trail Smoke Eaters when they won the Allan Cup in 1938.

U.S. Army Yanks, current leaders in the Edmonton Senior Baseball League, made some errors while being decisively beaten in Vancouver on Thursday night. In their 17 league games at Redfern Park, the Yanks made 41 errors and six of those occurred in one season, four being charged up on two occasions.

THREE IN TWICE
Jockey C. FORTNE now has had six winners in two days—three on Wednesday and three on Thursday. In each case they came in successive races. In addition Fortne has picked up four seconds and two thirds.

Ray Russell also has six wins, along with three seconds and three thirds which gives him first place among the jockey colony for the week's racing so far in Edmonton.

Bobby Tave, has collected a total of five firsts, five seconds and four thirds and E. J. Johnson has four wins, three seconds and a trip of thirds in his credit. In the first three days of the week, Gonzalez, now suspended, gathered up three wins, two seconds and one third.

By A and Q Club

Yanks Are Shut Out 12-0 In Second Game at Coast

VANCOUVER, July 20.—(CP)—The Arrows and Quilley all-stars of Vancouver trounced the visiting Edmonton Yanks ball club 12-0 in an exhibition game here Thursday night.

The loss was the second in as many nights for the Arrows. They dropped a 10-1 decision to the Arrows, leaders of the senior city baseball league Wednesday night.

Edmonton fell apart in the first inning when Vancouver got four hits, were given a lead number of walks and the visitors committed five errors to allow eight runs to cross the plate. The onslaught forced starting pitcher Wilbur Ray to the showers.

Johnny Gray took over until the time when he was batted out. Bob Dickman then went in and held Vancouver hitless until the eighth when he was touched for two hits. There were no home runs in the contest.

Sandy Robertson, starting A and Q hurler, pitched smart ball for five innings and Rex Wainwright took over in the sixth, pitched through ball for the remainder of the route.

Edmonton: 000 000—6 1 5
Vancouver: 12 0 0—12 0 5

Ray, Gray (1), McGowan, and trump, Beach (4), Robertson, Wainwright, and McGowan, Chase (1).

LONDON.—(CP)—Pit-Sgt. William Robert Brownjohn of Woking, Surrey, who "lost" a 1,000-pound bomb over Germany with an A-4, has been awarded the DFM.

EAC—Canadians Clash Tonight
The leading Canadian and second-place Edmonton Athletic Club nine will meet tonight in what should be one of the best Edmonton Junior B games.

League game of the season in a contest at Clark Stadium starting at 7 o'clock. The EAC won the only team in the fourth loop which has won a game from the first place.

Lawn Bowling
EDMONTON CLUB
The Edmonton Lawn Bowling Club is holding a twilight mixed tournament between men and women.

Entries will be accepted up to 5 p.m. on Wednesday. The draw will be on the green. Play will consist of 11 holes. The winner will receive a trophy and a prize. The loser will receive a trophy and a prize. The draw will be on the green. Play will consist of 11 holes. The winner will receive a trophy and a prize. The loser will receive a trophy and a prize.

ROYAL CLUB
An invitation is extended to members of other clubs to participate in an open house, which will be held at the Royal Club on Wednesday.

The open house will be held at the Royal Club on Wednesday. The draw will be on the green. Play will consist of 11 holes. The winner will receive a trophy and a prize. The loser will receive a trophy and a prize.

AT THE RACES ON THURSDAY—Action shot in the above layout shows Lover's Lass, owned by Don Carlos of Winnipeg and ridden by Jockey Robert Taves, winning the Golden Hills Handicap, feature event of Thursday's card of the Edmonton Exhibition Association's race meeting.

The traditional feature race decoration ceremony was performed by Mrs. Hale, wife of L. Col. R. Walter Hale, MC, ED. area, commandant. Jockey Taves, also shown above, had two wins, one second and a pair of thirds yesterday.

U.S. Army, Navy Score 11 in Fifth Officials Request Clippers Troupe Centrals To Advance in Playdowns

WASHINGTON, July 20.—(AP)—The 1945 world series was virtually assured Thursday as the result of a request by navy secretary Foran and Admiral Nimitz, commander-in-chief of the Pacific Fleet.

They asked Baseball Commissioner A. B. Hays (Babe) Chandler to make arrangements to send the navy army and navy teams at "99 days" of the Pacific ocean.

This move how eager the boys in service are for the world series to be played, Chandler said, "and there is no longer appears to be any valid reason for not playing the annual fall championship."

The playing of this year's series has been in doubt due to transportation difficulties, but Chandler said he felt sure "that problem can be worked out satisfactorily."

Chandler is an interview, said he "immediately called" the two big league presidents, Ford Frick, National, and Will Harridge, American, for their cooperation.

"I talk with Harridge and he thinks it is a swell idea," Chandler said. "I have been to see each Frick by phone. I'll call a meeting right away of Frick, Harridge and representatives of the secretary of navy to work out details."

CANADIAN SPORTSHOTS
BY ALAN HARVEY
TORONTO, July 20.—(CP)—Concert ball games—The popular "coffee pot" method of collecting money from crowds at amateur baseball games has kept many teams out of the red, but it doesn't always work. At Poplar Park in Niagara Falls, Ont., for instance, more than 600 fans watched St. Catharines defeat the local team in a scheduled fixture. The take totaled \$410—about a cent per fan.

The deal which sent DeWenham, from Toronto, to Chicago Black Hawks in exchange for Chicago players to be named later seems to have had a bombshell effect in some quarters. Captain Bob Davidson of the Leafs, who lives in Toronto and is in close touch with the club executive, says first word he received of the barter came from the newspapers.

Mutuel Play Of \$78,444 Second High

ANOTHER perfect day, a fast track and favorites displaying great aptitude for getting down in front, all combined to make Thursday's, the fourth card of the Edmonton Exhibition Association's race meeting, a success for the 9,000 fans in attendance. It was the second largest crowd of the week.

Three of the seven winners were favorites in the betting—Honeywagon in the first race, Lover's Lass in the first race, and Lover's Lass in the first race.

Although the \$78,444 which went through the mutuels was considerably less than the record breaking handle of Wednesday, the total was well over the \$46,000 for the corresponding day of the 1942 exhibition meeting.

Top prize for the afternoon was the \$135 return for nose duets on Wabrook in the fourth race and Sister's Best rewarded her backers with \$14.00, \$5.00 and \$3.00 across the board in the third.

Lowest pay for the day was Honeywagon's \$4.15 in the first race on the card. N. F. Dill's brown mare from Calgary started a slightly more than even money and justified the opinion held by her backers in the mutuels by being first out of the gate and outpacing the field right in the wire.

The Honeywagon to Devil's Peak daily double paid \$4.15 total of 106 tickets participating in the gross pool of \$5.00. The quinnels of \$15.00 was higher than had been generally expected as Rovito and Coral Rose were two hot favorites and had received a lot of play.

Showing most speed right from the start, Honeywagon quickly opened a long lead in the first race and although ultimately overtaken by the wire, beating the fast-moving Somers's Best by a neck.

Devil's Peak, owned by T. O'Connell of Orléans, Ill., trailed for about five furlongs and then came on to win the race.

A big fifth inning in which the winners expended for 31 runs, the two teams battled along on even terms until the big blast, but when Central finally called a big hit with a triple and a double.

Mike Miller kept the Central well in check throughout the contest, hurling shutout ball for six innings and only yielding six aside.

Following is the box score:
Central, 20; Army, 11.
Pitcher: Miller, 10; Frick, 10.
Batter: Miller, 10; Frick, 10.

Central, 20; Army, 11.

Ont. Legislature Ends Special Session

TORONTO, July 20.—(CP)—The Ontario Legislature's "short and special" session wound up after four days yesterday by approving a government motion to appoint a select house committee to study labor legislation. Lieutenant-Governor Albert Matthews will prorogue the Legislature Friday. Premier Dwyer, speaking to the motion to set up the committee, said it was hoped the Dominion-Provincial conference in Ottawa next month would approve the principle of a national code and

EDMONTON BULLETIN-ALBERTA FIRST NEWSPAPER-FRIDAY, JULY 30, 1943

WINS BIKE-LOSES IT

YOUTH FINDS LADY RUCK FIDDLE

Hard luck of the week: Youthful Emil Rosenfeld of Rathburn in the Edmonton Exhibition this week, full of vim, vigor and the blessings of Lady Luck.

Thursday afternoon he took in the Midway. Attracted to a game of chance concession, he followed the barker's instructions and put his money on a lucky number. He was rewarded by winning a bicycle and a shiny new bicycle.

Emil rode his new bike over to the grandstand and parked it outside the main gate while he took in the big show. He came out later, and you guessed it, the bike was gone.

He told Sgt. "Tony" Lyle at the Fair police station that he didn't know where the bike had gone and he had no license. "It was brand new and painted red," he reported sadly.

Widely Known Auditor Here, A. H. Allan, Dies

Andrew H. Allan, well known Edmonton auditor, died Friday in a city hospital. He was 69 years old.

Mr. Allan came to Edmonton in 1908 as a clerk for the City of Edmonton. He later became a partner in the firm of Allan, Allan & Co., which was later known as the A. H. Allan Co.

He was a member of the A. H. Allan Co., which was later known as the A. H. Allan Co.

Street Railway Carries 320,000 To Exhibition

During the first three days of the summer fair more than 320,000 patrons used the street railway to visit the exhibition grounds. It was announced Friday by Thomas Ferrier, street railway superintendent.

He announced also that meeting Sunday buses will operate on the Highlands route from the terminus at 112th Street and street through to the downtown section. The route will follow the usual loop now taken by the street cars.

Other changes announced by Mr. Ferrier include the running of the Red and Green sign over the street, which will be in operation on Sunday, August 1, and the operation of the street car on the 30th Street and 32nd Street route, which will be in operation on Sunday, August 1.

Winners Named In CP Airline Essay Contest

Two boys and two girls were winners in the Canadian Pacific Airline essay contest, open to students in high schools and colleges in the Pacific River area. It was announced Friday by T. W. Brown, director of traffic manager CPA, Edmonton.

Subject of the essay which brought more than 150 contributions in a most lively competition, was "The Advantages of Air Travel."

Mr. Brown was in charge of the contest.

Building Material Is on Way to City

The first two cars of material taken from bunk at Dawson Creek, B.C., for re-election here as apartment cars to provide temporary emergency accommodation for returned veterans has left the north end, and is expected to arrive in the city over the weekend. Max J. Dewar, city architect, said that a steady stream of this material would be arriving in the city.

He said that feelings for several of the courts have been completed at the Ritchie district location, and added that it had been decided to erect the accommodation units on the Bonnie Doon site.

Professors have been made against the use of the Bonnie Doon site, and an injunction was threatened if decision was made to place there the courts in the city. It is understood that following a survey made earlier in the week by provincial and municipal officers that the decision to use the Bonnie Doon site was arrived at.

Tax Collections

Current land tax collections on the second day of the year amounted to \$10,941.85 compared with \$11,961.32 for the corresponding period in 1942, an increase of \$1,019.47, according to figures released Friday by Thomas Walker, city assessor.

As U. S. Planes Spray Insecticide

Instead of stinging, pestiferous, swarming mosquitoes are being kept at bay by the use of the Air Transport Command's A-24 bombers.

Thanks to DDT, the powerful new insecticide sprayed from low-flying aircraft, the DDT is the only method of application. He advocates a comprehensive ground program such as clearing swamps, draining ponds, and filling low areas with him the best method of control is the use of the insecticide to the aerial treatment.

Because of the breeding habits of mosquitoes in this area, treatment from the air on a monthly basis will be sufficient to control the pests, McKee said.

The aerial spraying is being reported by Capt. Douglas H. McKee and the operation section, headed by K. C. Kramer of Battle Mountain.

New Brunswick Says Bond Issue

FRIDAY, July 30 (CP)—H. J. Hayes Dunlop, New Brunswick secretary-treasurer, announced yesterday that arrangements have been made for the sale of a \$100,000 bond issue to provide for the purchase of a 200-acre area in less than 12 months of flying time.

The current operations are the result of experiments carried out in the past year. The amount of DDT at the time of the Division's tests, Capt. McKee predicts that the insect-killing rate will be at least 95 per cent.

The aerial spraying of DDT by the Air Transport Command is an article by Capt. Douglas H. McKee and the operation section, headed by K. C. Kramer of Battle Mountain.

As U. S. Planes Spray Insecticide

Instead of stinging, pestiferous, swarming mosquitoes are being kept at bay by the use of the Air Transport Command's A-24 bombers.

Thanks to DDT, the powerful new insecticide sprayed from low-flying aircraft, the DDT is the only method of application. He advocates a comprehensive ground program such as clearing swamps, draining ponds, and filling low areas with him the best method of control is the use of the insecticide to the aerial treatment.

Because of the breeding habits of mosquitoes in this area, treatment from the air on a monthly basis will be sufficient to control the pests, McKee said.

The aerial spraying is being reported by Capt. Douglas H. McKee and the operation section, headed by K. C. Kramer of Battle Mountain.

New Brunswick Says Bond Issue

FRIDAY, July 30 (CP)—H. J. Hayes Dunlop, New Brunswick secretary-treasurer, announced yesterday that arrangements have been made for the sale of a \$100,000 bond issue to provide for the purchase of a 200-acre area in less than 12 months of flying time.

The current operations are the result of experiments carried out in the past year. The amount of DDT at the time of the Division's tests, Capt. McKee predicts that the insect-killing rate will be at least 95 per cent.

The aerial spraying of DDT by the Air Transport Command is an article by Capt. Douglas H. McKee and the operation section, headed by K. C. Kramer of Battle Mountain.

Never Failed

First Canadian Army Status
Unexcelled on Western Front

By ROSS MUNRO

LONDON, July 29.—(CP)—The 1st Canadian Army, scheduled for dissolution as a field force July 31, has been a great army—one that gave Canada new status in the world and never failed in a single operation as an army on the western front.

It was on April 6, 1942, that Gen. McCreagh, then commander, announced at his headquarters, Surrey, headquarters, that headquarters of the Canadian Army had been formed.

From that headquarters, the army formation developed to its full strength of five divisions and two independent armored brigades formed into two corps.

NOW FOLDS UP

In a big park at Apeldoorn, Holland, the army headquarters is beginning to fold up after 3½ years and will become headquarters of Canadian Forces in the Netherlands.

Probably within four or five days, Gen. Crerar, who led the force, will say goodbye to his headquarters and come to England for a week or two before sailing for Canada July 31 in the liner *Empress of France*.

Possibly some senior staff officers from his headquarters will be with him on the ship which also will carry details of long-service Canadians.

With the army's life ending when its commander sails for England, the 57-year-old general will return to the Dominion not as an army commander but simply as a Canadian general.

It is expected that Lt.-Gen. Macdonald, now in command of the 1st Canadian Corps, will leave for Holland shortly to begin taking over his new command in the Canadian Forces in the Netherlands.

MIGHTY RECORD
As the army passes into history, it leaves behind a magnificent record. It went into the line as the 1st Canadian Division, last August, and on Aug. 8 struck with all its power into the second line.

It was the first time the Canadian army in one of the greatest battles fought by Canadians in this war.

Three Canadian divisions, an armored brigade and a Polish armored division stormed south from the Canadian line, and the Canadian army won a resounding victory which was a big factor in the destruction of the German 7th Army in the West.

Wheeling east, Gen. Crerar paced the British 2nd Army to the Seine. Jumping over the Seine, the Canadian general led his formations forward.

On the Calais—the rocket bomb coast. The channel ports fell and the 1st Canadian Army drove the Germans from the Scheldt estuary and opened up the port of Antwerp, 30 miles up the winding Scheldt—a feat acclaimed by every Allied army on the western front.

Into Holland the army drove and into the water the 1st Canadian army, with practically all the resources of the 21st army group at its disposal, smashed the northern end of the Singed line southeast of Nijmegen. Driving through the Breckwold and Helderland, it cleared the lower Rhine.

SMASHING VICTORY
Gen. Crerar had 500,000 men under his command for that offensive. Eight British divisions operated alongside the Canadian 2nd, 3rd and 4th armored. This operation probably was one of the most important undertakings in the European war and it was a smashing victory.

The Rhine was crossed in March, and as Germany crumbled, Gen. Crerar and his army thrusting into Holland and the rest into northwest Germany. On May 2, the formal surrender of the German 21st army to the 1st Canadian army took place.

For the home-coming drive, the 1st Canadian Corps, which fought from Ortona to the Po Valley, joined the Canadian army and the entire army line was together.

Announce Plan Of Extra Grant Student Veterans
OTTAWA, July 29.—(CP)—Authorization has been given to pay a supplementary grant of up to \$50 to any university in Canada for each person on whose behalf tuition fees are paid by the veterans affairs department under provisions of the supplementary grant bill.

The supplementary grant is in addition to the regular university fees, provided that the total payment of fee and supplementary grant does not exceed \$50 for any student during any one year, the veterans' department said in a statement.

Big Three Secrecy Irks Boston Paper
BOSTON, July 29.—(AP)—Unhappy over the secrecy of the big three, the Boston Herald-Examiner is denouncing "Secrecy Shrouds Big Three Talks," in the middle of the front page of the Boston Globe yesterday, was an obituary of blank, white space. After the obituary was the heading "Official News."

The Road Ahead

Continued From Page Nine

It is not intended to provide the veteran with an additional cash for living expenses, but to assist him to furnish a home, to buy a house, to buy stock or equipment for his business, tools for his trade, to finance a vacation, or to assist in other special purposes, authorized by the minister.

If used for the purchase of a home or furniture, etc., the veteran must put up \$1 for every \$2 he expects to draw from his credit balance. When the department takes the stand that the money belongs to the man and they are merely holding it in trust for him, they insist that it must actually be spent for the re-establishment of the man.

"I have just completed at 12-months' expiry course and have been offered a job. However, my employer says I must provide my own tools. When I asked the department of veterans affairs to give me \$200 from my establishment credit to buy these tools they told me my credit was used up. I served one year in Canada and two years overseas before being discharged on medical grounds. I was not even allowed to start work."

Private RUC.
As a single man you draw \$60 per month from the department of Veterans Affairs. With your service you get establishment credit. If you are married you get \$87 a month. If you have a child you get \$102 a month. If you have two children you get \$117 a month. If you have three children you get \$132 a month. If you have four children you get \$147 a month. If you have five children you get \$162 a month. If you have six children you get \$177 a month. If you have seven children you get \$192 a month. If you have eight children you get \$207 a month.
